Aquanaut is family owned and has been servicing pools in your area since 1970. We provide a dependable, quality service at competitive rates for all your pool requirements including complete spring openings and fall closings. Aquanaut also has a fully stocked retail outlet offering FREE WATER TESTING, chemicals, pumps, heaters, and liner replacements. For those interested in converting their pool to salt water, we invite you to call and discuss the pros and cons of salt water chlorine generators. So, come in and find out for yourself why our personalized service will keep you coming back.

## NEW POOL OWNER

We take this opportunity to introduce ourselves and wish you all the best in your new home. Moving into a new house usually means an adjustment period before it feels like "home" and you feel comfortable with your surroundings. The swimming pool is sometimes one of the things that people feel most unsure of. How does it work? How do I clean it? Is everything working properly? Is the water safe and free of bacteria? These are some of the questions that need answers before you feel at ease with your pool.

For those of you who want to take all the work out of owning a pool we offer a Weekly Maintenance program in which we will test and adjust water chemistry, vacuum your pool, clean the scum line, filter baskets and backwash the filter on a regular pre-scheduled basis. The cost is only \$72.00 per week (includes labour up to 1 hour). This program virtually eliminates the need for you to perform pool maintenance chores all summer long. For those of you that maintain your own pool on a weekly basis you are invited to visit our fully stocked retail outlet for your chemicals, supplies and FREE water analysis.

If you require any special work (e.g. new tiles, liner work, marbleite, equipment or installation of a salt water generator) please let our office know as early as possible so we can co-ordinate with our staff and/or other specialty contractors to have the work done so you don't miss out on the already too short pool season!
